Sean Quirke opened the meeting & the minutes of the last meeting were accepted.

Project progress to date was discussed.

BS gave a summary report on the programme of works to the Harbour.

POR advised the Group that construction of the new club buildings would be deferred due to difficulties experienced in the current economic climate and because funding for construction of the new clubs is linked to construction and sales of residential units. Sispar are constantly reviewing the situation and would hope to be in a position to make decisions early in the New Year.

**Club Activities**

The condition of the slipway was discussed. SB stated that it seemed to be disintegrating and it was increasingly difficult to pull a boat up on to the slipway. It was also mentioned that there is a lot of algae growth present, in fact the club had to power wash the area twice so far. SS stated that he would have this investigated and every effort made to remedy the problem.

**The next meeting is scheduled to take place on Tuesday 17<sup>th</sup> November prior to the Liaison Committee Meeting at the Community Liaison Office.**
